

FINAL ADMINISTRATIVE DECISION ILLINOIS PROPERTY TAX APPEAL BOARD

APPELLANT: Scott Halden
DOCKET NO.: 24-46288.001-R-1
PARCEL NO.: 07-36-110-014-0000

The parties of record before the Property Tax Appeal Board are Scott Halden, the appellant, by Dora Cornelio, attorney-at-law of Schmidt Salzman & Moran, Ltd. in Chicago, and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$8,645
IMPR.: \$54,355
TOTAL: \$63,000

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2024 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property is improved with a two-story dwelling of frame construction containing 3,789 square feet of living area. The dwelling is approximately 26 years old. Features of the property include a full basement, central air conditioning, one fireplace, 2½ bathrooms, and a 2-car garage. The property has a 9,880 square foot site located in Elk Grove Village, Schaumburg Township, Cook County. The subject is classified as a class 2-78 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends inequity regarding the improvement assessment as the basis of the appeal. In support of this argument the appellant submitted information on five equity comparables composed of class 2-78 properties improved with two-story dwellings of frame or frame and masonry exterior construction that range in size from 2,662 to 3,280 square feet of living area. The dwellings range in age from 47 to 54 years old. Two comparables have a full or

partial basement and three comparables have crawl space foundations. Each property has central air conditioning, 2½ or 3½ bathrooms, and a 2-car garage. Four of the comparables each have one fireplace. These properties have the same assessment neighborhood code as the subject property. Their improvement assessments range from \$26,881 to \$37,162 or from \$9.88 to \$11.33 per square foot of living area. The appellant requested the subject's improvement assessment be reduced to \$42,134.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$63,000. The subject property has an improvement assessment of \$54,355 or \$14.35 per square foot of living area. In support of its contention of the correct assessment the board of review submitted information on four equity comparables composed of class 2-78 properties improved with two-story dwellings of frame construction that have either 3,525 or 3,789 square feet of living area and range in age from 23 to 26 years old. Each property has a full basement, central air conditioning, one fireplace, 2½ bathrooms, and a 2-car or a 3-car garage. The comparables have the same assessment neighborhood code as the subject and are located in the same assessment block as the subject property. Comparable #1 is located along the same street as the subject property. These properties have improvement assessments ranging from \$52,523 to \$56,515 or from \$14.59 to \$15.69 per square foot of living area. The board of review contends the building assessed value per square foot for the comparables are the same or higher than the subject, which supports the assessed value as equitable.

Conclusion of Law

The appellant contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The Board finds the best evidence of assessment equity to be the board of review comparables that are more similar to the subject property in location, age, size and features than are the comparables submitted by the appellant. The board of review comparables have improvement assessments that range from \$52,523 to \$56,515 or from \$14.59 to \$15.69 per square foot of living area. The subject's improvement assessment of \$54,355 or \$14.35 per square foot of living area falls within the range of the total improvement assessment but is below the range on a per square foot of living area basis as established by the best comparables in this record. Based on this record the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
