

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Tim Mehmeti
DOCKET NO.: 24-46330.001-R-1
PARCEL NO.: 12-01-308-008-0000

The parties of record before the Property Tax Appeal Board are Tim Mehmeti, the appellant, by attorney Michael R. O'Malley, of Schmidt Salzman & Moran Ltd. in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$14,728
IMPR.: \$67,273
TOTAL: \$82,001

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2024 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a 2-story dwelling of masonry exterior construction with 3,310 square feet of living area. The dwelling is approximately 19 years old. Features include a full basement, central air conditioning, and a 2-car garage. The property has a 5,891 square foot site and is located in Chicago, Jefferson Township, Cook County. The subject is classified as a class 2-78 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity with respect to the improvement as the basis of the appeal. In support of this argument, the appellant submitted information on five equity comparables located within the subject's assessment neighborhood. The comparables are improved with 2-story, class 2-78 dwellings of masonry exterior construction ranging in size from 3,229 to 3,549 square feet of living area. The homes range in age from 28 to 61 years old. Four comparables each have a full or partial basement and one comparable has a slab foundation.

Each comparable has central air conditioning and a 2-car or a 3-car garage. The comparables have improvement assessments ranging from \$51,600 to \$56,752 or from \$15.17 to \$15.99 per square foot of living area. Based on this evidence, the appellant requested that the improvement assessment be reduced to \$52,893.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$82,001. The subject property has an improvement assessment of \$67,273 or \$20.32 per square foot of living area. In support of its contention of the correct assessment, the board of review submitted information on three equity comparables¹ located within the subject's assessment neighborhood. The comparables are improved with 2-story, class 2-78 dwellings of masonry exterior construction ranging in size from 2,855 to 3,104 square feet of living area. The homes are either 17 or 20 years old. Each comparable has a full or partial basement, central air conditioning, and a 2-car or a 2.5-car garage. The comparables have improvement assessments ranging from \$63,940 to \$67,880 or from \$21.54 to \$22.94 per square foot of living area.

Conclusion of Law

The appellant contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted eight suggested equity comparables for the Board's consideration. The Board gives less weight to the appellant's comparables which are less similar to the subject in age than other comparables in this record and/or lack a basement foundation, which is a feature of the subject.

The Board finds the best evidence of assessment equity to be the three board of review comparables which are overall more similar to the subject in location, design/class, age, dwelling size, and other features. The best comparables have improvement assessments ranging from \$63,940 to \$67,880 or from \$21.54 to \$22.94 per square foot of living area. The subject's improvement assessment of \$67,273 or \$20.32 per square foot of living area falls within the range established by the best comparables in this record on an overall improvement assessment basis and below the range on a per square foot basis. After considering adjustments to the best comparables for differences from the subject, the Board finds the appellant did not demonstrate that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

¹The Board finds that board of review comparable #4 to be the same property as board of review comparable #1 as they each have the same property index number, physical address, and property characteristics.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
