FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD

APPELLANT: 800 LLC
DOCKET NO.: 24-49883.001-R-1
PARCEL NO.: 17-04-220-034-0000

The parties of record before the Property Tax Appeal Board are 800 LLC, the appellant, by attorney Michael R. O'Malley, of Schmidt Salzman & Moran, Ltd. in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds ***No Change*** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND:	$70,541
IMPR.:	$128,460
TOTAL:	$199,001

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2024 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a 2-story mixed-use building of masonry exterior construction with 5,049 square feet of building area. The building is approximately 67 years old. Features include a basement and central air conditioning. The property has a 4,551 square foot site and is located in Chicago, North Chicago Township, Cook County. The subject is classified as a class 2-12 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity with respect to the improvement as the basis of the appeal. In support of this argument, the appellant submitted information on five equity comparables located within the subject's assessment neighborhood. The comparables are improved with 2-story or 3-story, class 2-12 mixed-use buildings of masonry exterior construction ranging in size from 3,733 to 7,900 square feet of building area. The buildings are from 21 to 95 years old. Each comparable has a full basement. Four comparables each have

central air conditioning. One comparable has a 1.5-car garage. The comparables have improvement assessments that range from $87,082 to $144,700 or from $13.00 to $24.83 per square foot of building area. Based on this evidence, the appellant requested the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of $199,001. The subject property has an improvement assessment of $128,460 or $25.44 per square foot of building area.

In support of its contention of the correct assessment, the board of review submitted information on four equity comparables located within the subject's assessment neighborhood. The comparables are improved with 2-story or 3-story, class 2-12 mixed-use buildings of masonry exterior construction ranging in size from 4,350 to 5,555 square feet of building area. The buildings are from 108 to 149 years old. Each comparable has a full or partial basement. Three comparables each have central air conditioning. Two comparables each have a 2-car garage. The comparables have improvement assessments that range from $116,841 to $173,475 or from $25.81 to $33.04 per square foot of building area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

Conclusion of Law

The appellant contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted nine comparable properties for the Board's consideration. The Board finds none of the parties' comparables to be truly similar to the subject due to varying degrees of similarity to the subject in story-height, age, dwelling size, finished basement area, central air conditioning, and/or garage amenity. Each comparable would require two or more adjustments for the aforementioned differences relative to the subject to make them more equivalent to the subject building. Nevertheless, the equity comparables in this record have improvement assessments that range from $87,082 to $173,475 or from $13.00 to $33.04 per square foot of building area. The subject's improvement assessment of $128,460 or $25.44 per square foot of building area falls within the range established by the comparables in this record. Based on this record and after considering adjustments to the comparables for differences when compared to the subject, the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
