

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Susan Davis
DOCKET NO.: 24-49889.001-R-1
PARCEL NO.: 17-04-211-037-1002

The parties of record before the Property Tax Appeal Board are Susan Davis, the appellant(s), by attorney Scott Shudnow, of Shudnow & Shudnow, Ltd. in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **A Reduction** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$24,474
IMPR.: \$36,526
TOTAL: \$61,000

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2024 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property is an individual residential condominium unit with 15.5100% ownership interest in the common elements. It is situated in an eight-unit, 90-year-old, multi-story brick building with 2,000 square feet of living area. The property sits on a 5,082 square foot site and is located in Chicago, North Chicago Township, Cook County. The subject is classified as a class 2-99 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant's appeal is based on overvaluation. In support of this argument the appellant submitted evidence disclosing the subject property was purchased on May 8, 2024, for a price of \$610,000. The appellant answered the questions in Section IV of the residential appeal and submitted a Master sheet signed by all parties. The answers from Section IV of the residential appeal indicated that the sale of the subject property was not between family members, was sold by realtor, was advertised on the Multiple Listing Service for 1,048 days before the sale and was not due to a foreclosure action. Based on this evidence, the appellant requested a reduction in the subject's assessment to reflect 10% of the purchase price.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$84,340. The subject's assessment reflects a market value of \$843,400 when using the Cook County Real Estate Classification Ordinance level of assessment for class 2 property of 10%. In support of its contention of the correct assessment the board of review submitted information on comparable sales utilizing a condominium analysis consisting of four recent sales within the same condominium building. The board of review's four sales ranged in price from \$670,000 to \$710,000 and all sold between June 2023 and July 2024. The board of review added each of the sales (\$670,000+\$685,000+\$690,000+\$710,000) to get the total sales of \$2,755,000. The total percentage of ownership of the four sales was 48.2500%. Based on that the total value of the building of \$5,709,844. The subject unit has 15.5100% ownership interest in the building. The BOR would then estimate the fair market value of the subject property at \$885,597, which is above what the subject's assessed value suggests when factoring in the 10.00% level of assessment for a Class 2 property under the Cook County Property Assessment Classification Ordinance.

In rebuttal, the appellant submitted four MLS closing data sheets and a brief pointing out the differences of the board of review's four comparable sales to the subject property.

Conclusion of Law

The appellant contends the market value of the subject property is not accurately reflected in its assessed valuation. When market value is the basis of the appeal the value of the property must be proved by a preponderance of the evidence. 86 Ill.Admin.Code §1910.63(e). Proof of market value may consist of an appraisal of the subject property, a recent sale, comparable sales or construction costs. 86 Ill.Admin.Code §1910.65(c). The Board finds the appellant met this burden of proof and a reduction in the subject's assessment is warranted.

The Board finds the best evidence of market value to be the purchase of the subject property in April 2021 for a price of \$610,000. The appellant provided evidence demonstrating the sale had the elements of an arm's length transaction. The appellant completed Section IV - Recent Sale Data of the appeal disclosing the parties to the transaction were not related, the property was sold by realtor, the property had been advertised on the open market with the Multiple Listing Service and it had been on the market for 1,048 days. In further support of the transaction the appellant submitted a copy of a Master statement signed by all parties. There was no evidence from the parties that the subject was sold short or due to a foreclosure. The Board finds the purchase price was below the market value reflected by the assessment. Based on this record, the Board finds the subject property had a market value of \$610,000 as of May 8, 2024, and that a reduction in the subject's assessment is justified. Since market value has been determined, the 10.00% level of assessment for Class 2 property under the Cook County Property Assessment Classification Ordinance shall apply.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
