

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Alejandro Cervantes
DOCKET NO.: 24-49906.001-R-1
PARCEL NO.: 32-08-113-016-0000

The parties of record before the Property Tax Appeal Board are Alejandro Cervantes, the appellant, by attorney Gregory J. Hilton, of Property Tax Solutions in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **A Reduction** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$3,294
IMPR.: \$9,424
TOTAL: \$12,718

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2024 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a multi-level dwelling of frame and masonry exterior construction with 1,071 square feet of living area. The dwelling is approximately 66 years old. Features of the home include a basement. The property has a 7,320 square foot site and is located in Chicago Heights, Bloom Township, Cook County. The subject is classified as a class 2-34 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity regarding the improvement as the basis of the appeal. In support of this argument, the appellant submitted information on six equity comparables located within the same assessment neighborhood code as the subject and within 0.04 of a mile from the subject. The comparables are improved with multi-level homes ranging in size from 971 to 1,176 square feet of living area. The dwellings are from 64 to 67 years old. Each home has a basement. Two homes have central air conditioning and five comparables have

from a 1-car to a 2.5-car garage. The comparables have improvement assessments ranging from \$7,853 to \$10,371 or from \$7.89 to \$8.82 per square foot of living area. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment to \$9,124.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$15,459. The subject property has an improvement assessment of \$12,154 or \$11.36 per square foot of living area. In support of its contention of the correct assessment the board of review submitted information on four equity comparables located in Homewood, none of which are within the same assessment neighborhood code as the subject and for which no proximity to the subject was provided. The comparables have varying degrees of similarity to the subject in dwelling size, age, and features and have improvement assessments ranging from \$19,355 to \$20,582 or from \$14.94 to \$15.98 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

Conclusion of Law

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant met this burden of proof and a reduction in the subject's assessment is warranted.

The record contains a total of ten equity comparables for the Board's consideration. The Board gives less weight to the board of review's comparables, which are located in a different city and are not within the same assessment neighborhood code as the subject.

The Board finds the best evidence of assessment equity to be appellant's comparables, which are more similar to the subject in dwelling size, age, location, and some features, although five comparables have a garage unlike the subject and two comparables have central air conditioning unlike the subject, suggesting downward adjustments to these comparables would be needed to make them more equivalent to the subject. These comparables have improvement assessments that range from \$7,853 to \$10,371 or from \$7.89 to \$8.82 per square foot of living area. The subject's improvement assessment of \$12,165 or \$11.36 per square foot of living area falls above the range established by the best comparables in this record. Based on this record and after considering appropriate adjustments to the best comparables for differences from the subject, the Board finds the appellant demonstrated with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
