

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Stevan Galich
DOCKET NO.: 24-51023.001-R-1
PARCEL NO.: 14-33-123-005-0000

The parties of record before the Property Tax Appeal Board are Stevan Galich, the appellant, by attorney Michael R. O'Malley, of Schmidt Salzman & Moran, Ltd. in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$44,950
IMPR.: \$103,883
TOTAL: \$148,833

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2024 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a 2-story, multi-family building of masonry exterior construction with 3,363 square feet of gross building area and is approximately 126 years old. Features include a full basement finished with an apartment,¹ 3 bathrooms, central air conditioning, a fireplace and a 2-car garage. The property has a 2,900 square foot site and is located in Chicago, North Chicago Township, Cook County. The subject is classified as a class 2-11 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity with respect to the improvement as the basis of the appeal. In support of this argument, the appellant submitted information on five equity comparables located within the same assessment neighborhood as the subject. The comparables

¹ The board of review disclosed the subject's basement has an apartment, which was not reported or refuted by the appellant.

consist of 2-story or 3-story, class 2-11 multi-family buildings of masonry exterior construction ranging in size from 3,066 to 3,549 square feet of gross building area. The buildings are from 77 to 142 years old. Each comparable has a partial or full basement, either 3, 3½, 4 or 4½ bathrooms and a 2-car or a 4-car garage. One comparable has central air conditioning, and one comparable has a fireplace. The comparables have improvement assessments ranging from \$54,340 to \$60,875 or from \$15.36 to \$18.48 per square foot of gross building area. Based on this evidence, the appellant requested that the subject's improvement assessment be reduced.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$148,833. The subject property has an improvement assessment of \$103,883 or \$30.89 per square foot of gross building area. In support of its contention of the correct assessment, the board of review submitted information on four equity comparables located within the subject's assessment neighborhood and within the subject's subarea or approximately ¼ of a mile from the subject. The comparables consist of 2-story, class 2-11 multi-family buildings of masonry exterior construction ranging in size from 2,827 to 3,446 square feet of gross building area. The buildings are 137 or 145 years old. Each comparable has a full basement, three of which have apartments, 2 or 3 bathrooms, and a 2-car garage. Three comparables each have central air conditioning. The comparables have improvement assessments ranging from \$91,182 to \$117,563 or from \$31.09 to \$35.62 per square foot of gross building area. Based on this evidence, the board of review requested the subject's assessment be confirmed.

Conclusion of Law

The appellant contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted nine suggested comparables for the Board's consideration. The Board gives less weight to the appellant's comparables as well as board of review comparables #3 and #4 which are less similar to the subject in design, building size, and/or lack central air conditioning, unlike the subject.

The Board finds the best evidence of assessment equity to be board of review comparables #1 and #2 which overall are most similar to the subject in location, design, age, building size, bathroom count, and other features. These two comparables have improvement assessments of \$107,500 and \$117,563 or \$34.32 and \$35.62 per square foot of gross building area. The subject's improvement assessment of \$103,883 or \$30.89 per square foot of gross building area falls below the two best comparables in this record. After considering adjustments to the two best comparables for differences when compared to the subject, the Board finds a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
