

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: David Harter
DOCKET NO.: 24-51026.001-R-1
PARCEL NO.: 14-32-219-023-0000

The parties of record before the Property Tax Appeal Board are David Harter, the appellant, by attorney Michael R. O'Malley, of Schmidt Salzman & Moran, Ltd. in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$32,550
IMPR.: \$102,450
TOTAL: \$135,000

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2024 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a 3-story dwelling of masonry exterior construction with 2,384 square feet of living area. The dwelling is approximately 142 years old. Features of the home include a full basement, 2-bathrooms and a fireplace. The property has a 2,100 square foot site and is located in Chicago, North Chicago Township, Cook County. The subject is classified as a class 2-10 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity with respect to the improvement as the basis of the appeal. In support of this argument the appellant submitted information on five equity comparables located within the subject's assessment neighborhood, along with property characteristics printouts that were used by the Board to verify or correct some data in the grid analysis. The comparables are improved with 2-story or 3-story class 2-10 dwellings of masonry exterior construction ranging in size from 2,227 to 2,496 square feet of living area. The

dwelling are from 126 to 146 years old. The comparables have full basements, either 1, 2, 2½ or 3½ bathrooms, and central air conditioning. Four comparables have 1 or 2 fireplaces. The comparables have improvement assessments ranging from \$63,238 to \$89,511 or from \$27.59 to \$39.99 per square foot of living area. Based on this evidence, the appellant requested the subject's improvement assessment be reduced to \$74,643 or \$31.31 per square foot of living area.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$135,000. The subject property has an improvement assessment of \$102,450 or \$42.97 per square foot of living area.

In support of its contention of the correct assessment the board of review submitted information on four equity comparables located within the subject's assessment neighborhood and within the subject's block or approximately ¼ of a mile from the subject property. The comparables are improved with 2-story or 3-story class 2-10 dwellings of masonry exterior construction ranging in size from 2,177 to 2,304 square feet of living area. The dwellings are from 146 to 157 years old. Two comparables have full basements, and two comparables have crawl space foundations. Three comparables each have central air conditioning, three comparables each have 1 or 2 fireplaces, and each comparable has a 1.5-car or a 2-car garage. The comparables have improvement assessments ranging from \$115,839 to \$146,250 or from \$53.21 to \$65.58 per square foot of living area. Based on this evidence, the board of review requested the subject's assessment be confirmed.

Conclusion of Law

The appellant contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted nine equity comparables for the Board's consideration with varying degrees of similarity to the subject in design, age, dwelling size, foundation type, present central air conditioning and/or present a garage amenity, both of which the subject lacks. Nevertheless, the Board gives less weight to the appellant's comparables #1, #2, #3 and #5 as well as the board of review's comparables #2, #3 and #4 due to differences in their designs or foundation types when compared to the subject.

The Board finds the best evidence of assessment equity to be the parties' remaining comparables which are overall most similar to the subject in design, age, dwelling size, location and some features. These two comparables have improvement assessments of \$89,511 and \$130,450 or \$39.98 and \$56.62 per square foot of living area. The subject's improvement assessment of \$102,450 or \$42.97 per square foot of living area is bracketed by the two best comparables in the record. After considering adjustments to the two best comparables for differences from the

subject, the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

The constitutional provision for uniformity of taxation and valuation does not require mathematical equality. A practical uniformity, rather than an absolute one, is the test. Apex Motor Fuel Co. v. Barrett, 20 Ill.2d 395 (1960). Although the comparables presented by the parties disclosed that the properties located in the same area are not assessed at identical levels, all that the constitution requires is a practical uniformity, which appears to exist on the basis of the evidence.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
