FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD

APPELLANT: Ellen Stone-Belic
DOCKET NO.: 24-51415.001-R-1
PARCEL NO.: 14-33-114-018-0000

The parties of record before the Property Tax Appeal Board are Ellen Stone-Belic, the appellant, by attorney Michael R. O'Malley, of Schmidt Salzman & Moran, Ltd. in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds ***No Change*** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND:	$49,213
IMPR.:	$129,744
TOTAL:	$178,957

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2024 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a 2-story dwelling of masonry exterior construction with 3,040 square feet of living area. The dwelling is approximately 55 years old. Features of the home include a basement with finished area, 3½ bathrooms, central air conditioning, and a fireplace. The property has a 3,175 square foot site and is located in Chicago, North Chicago Township, Cook County. The subject is classified as a class 2-78 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity with respect to the improvement as the basis of the appeal. In support of this argument the appellant submitted information on five comparables located within the same assessment neighborhood as the subject property. The comparables consist of class 2-78, 2-story or 3-story dwellings of masonry or frame and masonry exterior construction ranging in size from 2,804 to 3,330 square feet of living area. The dwellings are 32

to 37 years old. Three comparables each have a basement, and two comparables each have a concrete slab or crawl space foundation. Each comparable has either 2, 2½, 3½ or 4½ bathrooms, central air conditioning, 1 to 3 fireplaces, and a 2-car garage. The comparables have improvement assessments that range from $91,997 to $121,687 or from $32.53 to $36.73 per square foot of living area. The appellant requested the subject's assessment be reduced.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of $178,957. The subject property has an improvement assessment of $129,744 or $42.68 per square foot of living area. In support of its contention of the correct assessment the board of review submitted information on four comparables located within the same assessment neighborhood as the subject property. The comparables consist of class 2-78, 2-story dwellings of masonry exterior construction ranging in size from 2,058 to 3,060 square feet of living area. The dwellings are 21 to 60 years old. Each comparable has a basement with finished area, either 2½, 3½ or 6½ bathrooms, central air conditioning, a fireplace, and either a 2-car or 2.5-car garage. The comparables have improvement assessments that range from $107,763 to $161,088 or from $48.94 to $58.00 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

Conclusion of Law

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted nine comparables for the Board's consideration,. The comparables present varying degrees of similarity to the subject in age, dwelling size, bathroom count, foundation type and/or present a garage amenity, which the subject lacks. Nevertheless, the Board gives less weight to appellant's comparables #1 and #2 which lack a basement foundation, unlike the subject. In addition, the Board gives less weight to the board of review's comparables #3 and #4 which are less similar to the subject in both age and/or dwelling size than the other comparables in the record.

The Board finds the best evidence of assessment equity to be the parties' remaining comparables which are overall most similar to the subject in design, dwelling size, and foundation type. However, the Board finds the comparables require adjustments for varying degrees of similarities when compared to the subject in their bathroom counts and presence of garage amenity, plus four comparables that have from 32- to 41-year-old dwellings relative to the 55-year-old age of the subject dwelling. Nonetheless, these five comparables have improvement assessments ranging from $104,244 to $161,088 or from $35.88 to $56.13 per square foot of gross building area. The subject's improvement assessment of $129,744 or $42.68 per square foot of living area falls within the range established by the most similar comparables in the record. After considering adjustments to the most similar comparables for differences from the

subject, the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

The constitutional provision for uniformity of taxation and valuation does not require mathematical equality. A practical uniformity, rather than an absolute one, is the test. Apex Motor Fuel Co. v. Barrett, 20 Ill.2d 395 (1960). Although the comparables presented by the parties disclosed that the properties located in the same area are not assessed at identical levels, all that the constitution requires is a practical uniformity, which appears to exist on the basis of the evidence.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
