

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Michael Nemlich
DOCKET NO.: 24-51419.001-R-1
PARCEL NO.: 14-33-130-031-0000

The parties of record before the Property Tax Appeal Board are Michael Nemlich, the appellant, by attorney Michael R. O'Malley, of Schmidt Salzman & Moran, Ltd. in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$48,050
IMPR.: \$78,836
TOTAL: \$126,886

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2024 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a three-story multi-family building of masonry exterior construction with 3,564 square feet of gross building area. The building is approximately 138 years old. Features include a full basement, central air conditioning, and a two-car garage. The property has a 3,100 square foot site and is located in Chicago, North Chicago Township, Cook County. The subject is classified as a class 2-11 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity concerning the improvement as the basis of the appeal. In support of this argument, the appellant submitted information on five equity comparables located within the same assessment neighborhood as the subject. The comparables consist of class 2-11 two-story multi-family buildings of masonry exterior construction ranging in size from 3,385 to 3,834 square feet of gross building area. The buildings are from 133 to 142

years old. Each comparable has a full basement and either a two-car or a four-car garage. Two comparables each have central air conditioning, and one comparable has a fireplace. The comparables have improvement assessments ranging from \$53,950 to \$71,872 or from \$14.07 to \$18.78 per square foot of gross building area. Based on this evidence, the appellant requested the subject's improvement assessment be reduced.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$126,886. The subject property has an improvement assessment of \$78,836 or \$22.12 per square foot of gross building area.

In support of its contention of the correct assessment, the board of review submitted information on four equity comparables located within the same assessment neighborhood as the subject. The comparables consist of class 2-11 three-story multi-family buildings of masonry exterior construction ranging in size from 3,275 to 3,907 square feet of gross building area. The buildings are from 137 to 141 years old. Each comparable has a full basement and a two-car garage. Three comparables have central air conditioning, and two comparables have one or three fireplaces. The comparables have improvement assessments ranging from \$94,940 to \$109,620 or from \$24.30 to \$32.26 per square foot of gross building area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

Conclusion of Law

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted a total of nine equity comparables for the Board's consideration. The Board gives less weight to the appellant's comparables and the board of review's comparable #2 due to differences in their design and/or a lack of central air conditioning when compared to the subject.

The Board finds the best evidence of assessment equity to be the board of review's comparables #1, #3 and #4 which are overall most similar to the subject in location, design, age, building size and most features. These best comparables have improvement assessments ranging from \$94,940 to \$109,620 or from \$24.30 to \$32.26 per square foot of gross building area. The subject has an improvement assessment of \$78,836 or \$22.12 per square foot of gross building area which falls below the range of the best comparables in the record. After considering adjustments to the best comparables for differences when compared to the subject, the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
