

**FINAL ADMINISTRATIVE DECISION  
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Michael Drommerhausen  
DOCKET NO.: 24-51986.001-R-1  
PARCEL NO.: 14-32-126-022-0000

The parties of record before the Property Tax Appeal Board are Michael Drommerhausen, the appellant, by attorney Michael R. O'Malley, of Schmidt Salzman & Moran, Ltd. in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

**LAND:** \$35,557  
**IMPR.:** \$60,848  
**TOTAL:** \$96,405

Subject only to the State multiplier as applicable.

**Statement of Jurisdiction**

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2024 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

**Findings of Fact**

The subject property consists of a 2-story multi-family building of masonry exterior construction with 2,562 square feet of gross building area. The building is approximately 146 years old. Features include a full basement with an apartment.<sup>1</sup> The property has a 2,294 square foot site and is located in Chicago, North Chicago Township, Cook County. The subject is classified as a class 2-11 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity concerning the improvement as the basis of the appeal. In support of this argument, the appellant submitted information on five comparables located within the same assessment neighborhood as the subject. The comparables consist of class 2-11 2-story or 3-story multi-family buildings of masonry exterior construction ranging in

size from 2,376 to 2,814 square feet of gross building area. The buildings are from 125 to 136 years old. The comparables have full basements with “n/a” disclosed for the finished area. Three comparables each have a 2-car garage. The comparables have improvement assessments ranging from \$41,502 to \$49,104 or from \$16.90 to \$18.06 per square foot of gross building area. Based on this evidence, the appellant requested the subject’s improvement assessment be reduced.

The board of review submitted its “Board of Review Notes on Appeal” disclosing the total assessment for the subject of \$96,405. The subject property has an improvement assessment of \$60,848 or \$23.75 per square foot of gross building area. In support of its contention of the correct assessment, the board of review submitted information on four comparables located within the same assessment neighborhood as the subject. The comparables consist of class 2-11 2-story multi-family buildings of masonry exterior construction ranging in size from 2,246 to 2,852 square feet of gross building area. The buildings are from 137 to 150 years old. The comparables have full basements, three of which have an apartment. Two comparables each have central air conditioning, one comparable has a fireplace, and two comparables each have a 2-car garage. The comparables have improvement assessments ranging from \$55,872 to \$76,831 or from \$24.00 to \$27.64 per square foot of gross building area. Based on this evidence, the board of review requested confirmation of the subject’s assessment.

### **Conclusion of Law**

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted a total of nine equity comparables for the Board’s consideration. The Board gives less weight to the appellant’s comparable #4 which is less similar to the subject in story height and age than the other comparables in the record.

The Boards finds the best evidence of assessment equity to be the appellant’s comparables #1, #2, #3 and #5 as well as the board of review’s comparables which are overall most similar to the subject in location, design, age and building size. However, except for the board of review’s comparable #1, upward adjustments are required to the comparables for a lack of central air conditioning and/or a lack of a garage amenity in order to make them more equivalent to the subject property. Nevertheless, these eight comparables have improvement assessments ranging from \$41,502 to \$76,831 or from \$16.90 to \$27.64 per square foot of gross building area. The subject’s an improvement assessment of \$60,848 or \$23.75 per square foot of gross building area falls within the range of the best comparables in the record and below the board of review comparable #1 at the top end the value range. After considering adjustments to the best comparables for differences when compared to the subject, the Board finds the appellant did not

demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

The constitutional provision for uniformity of taxation and valuation does not require mathematical equality. A practical uniformity, rather than an absolute one, is the test. Apex Motor Fuel Co. v. Barrett, 20 Ill.2d 395 (1960). Although the comparables presented by the parties disclosed that the properties located in the same area are not assessed at identical levels, all that the constitution requires is a practical uniformity, which appears to exist on the basis of the evidence.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
