Subject only to the State multiplier as applicable.

## Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2024 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

## Findings of Fact

The subject property consists of a 3-story dwelling of masonry exterior construction with 2,220 square feet of living area. The dwelling is approximately 20 years old.[1] The home features a slab foundation, 3½ bathrooms, central air conditioning, and a 2-car garage. The property has a 754 square foot site and is located in Chicago, South Chicago, Cook County. The subject is classified as a class 2-95 townhome or row house property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity with respect to the improvement as the basis of the appeal. In support of this argument the appellant submitted information, including property characteristics printouts that were used by the Board to verify or correct some of the data in the

[1] The Board finds the best description of the subject's property characteristics was gleaned from the board of review's grid analysis, which was unrefuted by the appellant.

grid analysis, on five equity comparables. The properties are located within the subject's assessment neighborhood, and the appellant's grid analysis reported "n/a" for the comparables' proximity to the subject. The comparables consist of class 2-95, 3-story dwellings of masonry exterior construction ranging in size from 2,243 to 2,302 square feet of living area. The dwellings are 20 or 22 years old. Each comparable has a slab foundation, either 2 or 2½ bathrooms, central air conditioning, a fireplace, and a 2-car garage. The comparables have improvement assessments that range from $51,544 to $54,452 or from $22.97 to $23.65 per square foot of living area. Based on this evidence, the appellant requested the subject's improvement assessment be reduced.

The appellant submitted a copy of the Cook County Board of Review final decision disclosing the subject property has a total assessment of $79,000. The subject property has an improvement assessment of $65,881 or $29.68 per square foot of living area.

The board of review submitted its "Board of Review Notes on Appeal." In support of its contention of the correct assessment the board of review submitted information on four comparables located within the subject's assessment neighborhood and within approximately ¼ of a mile from the subject property. Comparables #1 and #2 are located within the same block and/or street as the subject. The comparables consist of class 2-95, 3-story dwellings of masonry exterior construction each containing 2,220 or 2,228 square feet of living area. The dwellings are 7 to 20 years old. Each comparable has a slab foundation, 3½ bathrooms, central air conditioning, and a 2-car garage. The comparables have improvement assessments that range from $67,915 to $69,621 or from $30.59 to $31.25 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

## Conclusion of Law

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted nine suggested comparables for the Board's consideration. The Board gives less weight to the board of review's comparables #3 and #4 due to their newer ages when compared to the subject

The Board finds the best evidence of assessment equity to be the appellant's comparables and the board of review's comparables #1 and #2 which are overall most similar, including two of which are identical, to the subject in design, age, dwelling size, foundation type, location and most features. These seven comparables have improvement assessments ranging from $51,544 to $69,621 or from $22.97 to $31.25 per square foot of living area. The subject's improvement assessment of $65,881 or $29.68 falls within the range established by the best comparables in the record and falls below the board of review comparables #1 and #2 improvement assessments

which are at the upper limit of the value range of the best comparables in the record. After considering adjustments to the best comparables for differences from the subject, the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
