

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Joseph Michaels
DOCKET NO.: 24-52670.001-R-1
PARCEL NO.: 14-32-206-031-0000

The parties of record before the Property Tax Appeal Board are Joseph Michaels, the appellant, by attorney Michael R. O'Malley, of Schmidt Salzman & Moran, Ltd. in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$47,663
IMPR.: \$102,338
TOTAL: \$150,001

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2024 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a 3-story dwelling of frame and masonry exterior construction with 3,052 square feet of living area. The dwelling is approximately 155 years old. Features of the dwelling include a full basement, central air conditioning, a fireplace, and a 2-car garage. The property has a 3,075 square foot site and is located in Chicago, North Chicago Township, Cook County. The subject is classified as a class 2-06 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity regarding the improvement as the basis of the appeal. In support of this argument the appellant submitted information on five equity comparables located within the same assessment neighborhood code as the subject. The comparables are improved with 2-story or 3-story, class 2-06 dwellings of masonry or frame and masonry exterior construction ranging in size from 2,808 to 3,285 square feet of living area. The

dwellings are from 132 to 141 years old. Three comparables have a partial or a full basement, and two comparables have a slab foundation or crawl space foundation. Four comparables each have central air conditioning, three comparables have 1 or 2 fireplaces, and three comparables have either a 2-car or a 2.5-car garage. The comparables have improvement assessments ranging from \$71,750 to \$93,688 or from \$22.42 to \$30.00 per square foot of living area. Based on this evidence the appellant requested a reduction in the subject's improvement assessment to \$79,321.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$150,001. The subject property has an improvement assessment of \$102,338 or \$33.53 per square foot of living area.

In support of its contention of the correct assessment the board of review submitted information on four equity comparables located within the subject's assessment neighborhood and within approximately $\frac{1}{4}$ of a mile from the subject. The comparables are improved with 2-story or 3-story, class 2-06 dwellings of masonry exterior construction ranging in size from 3,028 to 3,093 square feet of living area. The dwellings are from 138 to 157 years old. Each comparable has a partial or full basement, three comparables each have central air conditioning and a 2-car garage, and two comparables have 1 or 4 fireplaces. The comparables have improvement assessments ranging from \$108,950 to \$127,479 or from \$35.22 to \$42.10 per square foot of living area. Based on this evidence the board of review requested confirmation of the subject's assessment.

Conclusion of Law

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Adm.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Adm.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The record contains a total of nine equity comparables for the Board's consideration, which have varying degrees of similarity to the subject in story height, foundation type and other features. Nevertheless, the Board gives less weight to the appellant's comparable #2, #4 and #5 as well as the board of review's comparable #1 which lack a basement foundation, central air conditioning, and/or a garage amenity, all of which are features of the subject.

The Board finds the best evidence of assessment equity to be the parties' remaining comparables which overall are most similar to the subject in location, dwelling size, age, basement foundation and some features. These comparables have improvement assessments ranging from \$71,750 to \$127,479 or from \$22.42 to \$42.10 per square foot of living area. The subject's improvement assessment of \$102,338 or \$33.53 per square foot of living area falls within the range established by the best comparables in this record. After considering adjustments to the best comparables for differences from the subject, the Board finds the appellant did not demonstrate with clear and

convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

The constitutional provision for uniformity of taxation and valuation does not require mathematical equality. A practical uniformity, rather than an absolute one, is the test. Apex Motor Fuel Co. v. Barrett, 20 Ill.2d 395 (1960). Although the comparables presented by the parties disclosed that the properties located in the same area are not assessed at identical levels, all that the constitution requires is a practical uniformity, which appears to exist on the basis of the evidence.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
