FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD

APPELLANT: Daniel Taylor
DOCKET NO.: 24-52920.001-R-1
PARCEL NO.: 17-33-308-019-0000

The parties of record before the Property Tax Appeal Board are Daniel Taylor, the appellant, by attorney Michael R. O'Malley, of Schmidt Salzman & Moran, Ltd. in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds ***no change*** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND:	$18,247
IMPR.:	$62,753
TOTAL:	$81,000

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2024 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a 2-story dwelling of masonry exterior construction with 2,322 square feet of living area. The home is approximately 7 years old.[1] Features include a partial basement with finished area, central air conditioning, a fireplace, and a 2-car garage. The property has a 3,348 square foot site and is located in Chicago, South Chicago Township, Cook County. The subject is classified as a class 2-78 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity with respect to the improvement as the basis of the appeal. In support of this argument, the appellant submitted information on five equity

[1] The Board finds the subject dwelling is approximately 7 years old as indicated in the board of review's grid analysis and is consistent with the subject's property characteristic printout that was provided by the appellant. The board of review also disclosed the subject's basement has finished area, which was not refuted by the appellant.

comparables located within the same assessment neighborhood as the subject. The comparables are improved with 2-story, class 2-78 dwellings of masonry or frame and masonry exterior construction ranging in size from 2,199 to 2,512 square feet of living area. The homes are 18 to 46 years old. The comparables each have a full or partial basement and a 2-car garage. Four comparables each have central air conditioning. The comparables have improvement assessments ranging from $38,781 to $44,650 or from $17.36 to $17.85 per square foot of living area. Based on this evidence, the appellant requested that the improvement assessment be reduced to $40,960 or $17.64 per square foot of living area.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of $81,000. The subject property has an improvement assessment of $62,753 or $27.03 per square foot of living area. In support of its contention of the correct assessment, the board of review submitted information on three equity comparables located within the subject's assessment neighborhood and within approximately ¼ of a mile from the subject. The comparables are improved with 2-story, class 2-78 dwellings of masonry exterior construction ranging in size from 2,113 to 2,328 square feet of living area. The homes are 7 to 13 years old. The comparables each have a full or partial basement with finished area, central air conditioning, and a 2-car garage. The comparables have improvement assessments ranging from $53,312 to $62,787 or from $25.23 to $26.97 per square foot of living area. Based on this evidence, the board of review requested that the subject's assessment be confirmed.

Conclusion of Law

The appellant contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted eight suggested comparables for the Board's consideration. The Board gives less weight to the appellant's comparables due to the dwellings' considerably older ages when compared to the subject dwelling.

The Board finds the best evidence of assessment equity to be the board of review's comparables which are overall most similar to the subject in location design, age, dwelling size and most features. These three comparables have improvement assessments ranging from $53,312 to $62,787 or from $25.23 to $26.97 per square foot of living area. The subject's improvement assessment of $62,753 or $27.03 per square foot of living area falls within the range on an overall basis and above the range on a per square foot basis. After considering adjustments to the best comparables for differences when compared to the subject, the Board finds the subject's improvement assessment is supported. Based on this evidence, the Board finds a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
