FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD

APPELLANT: Wanda Choinski
DOCKET NO.: 24-53052.001-R-1
PARCEL NO.: 12-24-222-015-0000

The parties of record before the Property Tax Appeal Board are Wanda Choinski, the appellant, by attorney Andrew S. Dziuk, of Andrew Dziuk, Esq. in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds ***No Change*** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND:	$9,525
IMPR.:	$17,475
TOTAL:	$27,000

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2024 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property is improved with a 1-story dwelling of masonry exterior construction with 840 square feet of living area. The dwelling is approximately 73 years old. Features include a full basement, central air conditioning,[1] and a 2-car garage. The property has a 3,810 square foot site located in Chicago, Jefferson Township, Cook County. The subject is classified as a class 2-02 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity regarding the improvement as the basis of the appeal. In support of this argument the appellant submitted information on five comparables located within the subject's assessment neighborhood code and from 0.24 of a mile to 1.17 miles from the subject property. The comparables are improved with class 2-02, single family

[1] The Board finds the subject has central air conditioning according to Section III of the appellant's Residential Appeal petition and the board of review's grid analysis.

dwellings of masonry exterior construction ranging in size from 875 to 975 square feet of living area. The dwellings are 69 to 102 years old. Four comparables each have a full or partial basement and one comparable has a slab foundation. Two comparables each have a 1.5-car garage. The comparables have improvement assessments that range from $11,158 to $12,700 or from $11.73 to $13.13 per square foot of living area. The appellant requested the subject's improvement assessment be reduced to $9,853.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of $27,000. The subject property has an improvement assessment of $17,475 or $20.80 per square foot of living area.

In support of its contention of the correct assessment the board of review submitted information on four comparables located within the subject's assessment neighborhood and ¼ of a mile from the subject property. The comparables are improved with class 2-02 dwellings of masonry or frame and masonry exterior construction ranging in size from 796 to 936 square feet of living area. The dwellings are 73 to 101 years old. The comparables each have a full basement with three having finished area and a 2-car garage. Three comparables each have central air conditioning. The comparables have improvement assessments that range from $16,660 to $21,625 or from $20.93 to $25.35 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

Conclusion of Law

The appellant contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted nine equity comparables for the Board's consideration. The Board gives less weight to the appellant's comparables, as well as board of review comparables #1 and #4, due to differences relative to the subject in location, age, and/or garage amenity.

The Board finds the best evidence of assessment equity to be the board of review's comparables #2 and #3 which are similar to the subject in location, age, dwelling size and have a garage, like the subject, but have varying degrees of similarity to the subject in other features. The two best comparables have improvement assessments of $20,700 and $21,625 or $22.12 and $25.35 per square foot of living area. The subject's improvement assessment of $17,475 or $20.80 per square foot of living area falls below the two best comparables in the record. Based on this record, the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
