

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Tadeusz Golaszewski
DOCKET NO.: 24-53062.001-R-1
PARCEL NO.: 13-05-309-003-0000

The parties of record before the Property Tax Appeal Board are Tadeusz Golaszewski, the appellant, by attorney Andrew S. Dziuk, of Andrew Dziuk, Esq. in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$11,532
IMPR.: \$34,468
TOTAL: \$46,000

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2024 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a 2-story multi-family building of masonry exterior construction with 2,032 square feet of building area. The building is approximately 70 years old. Features of the building include a full basement and a 2-car garage. The property has an approximately 3,720 square foot site and is located in Chicago, Jefferson Township, Cook County. The subject is classified as a class 2-11 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity with respect to the improvement as the basis of the appeal. In support of this argument, the appellant submitted five equity comparables located in the same assessment neighborhood code as the subject property. The comparables are improved with class 2-11, 2-story buildings of masonry exterior construction that range in size from 2,138 to 2,424 square feet of building area. The buildings range in age from 55 to 100 years old. Three comparables each have a full basement and two comparables each have a slab foundation. Four comparables each have from a 1-car to 2-car garage. The comparables have improvement

assessments that range from \$28,175 to \$31,841 or from \$11.63 to \$14.74 per square foot of building area. Based on this evidence, the appellant requested a reduction the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$46,000. The subject property has an improvement assessment of \$34,468 or \$16.96 per square foot of building area.

In support of its contention of the correct assessment, the board of review submitted information on eight equity comparables located in the same assessment neighborhood code as the subject property. The comparables are improved with class 2-11, 2-story buildings of masonry exterior construction that range in size from 1,872 to 2,136 square feet of building area. The buildings range in age from 67 to 75 years old. Each comparable has a full basement and a 1.5-car or 2-car garage. Two comparables each have central air conditioning. The comparables have improvement assessments that range from \$32,468 to \$36,973 or from \$17.13 to \$18.12 per square foot of building area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

Conclusion of Law

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The record contains thirteen suggested equity comparables for the Board's consideration. The Board has given less weight to appellant's comparables #1, #2, #4 and #5 as well as board of review comparables #4 and #6 due to their differences from the subject in age, building size and/or central air conditioning amenity.

The Board finds the best evidence of assessment equity to be the parties remaining comparables. The Board finds that these comparables are most similar to the subject in design, age, building size and some features. These most similar comparables have improvement assessments ranging from \$31,841 to \$36,584 or from \$13.85 to \$18.00 per square foot of building area. The subject's improvement assessment of \$34,468 or \$16.96 per square foot of building area falls within the range of the best comparables in this record. Based on this record and after considering adjustments to the best comparables for differences from the subject, the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
