

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Krystyna Dziwisz
DOCKET NO.: 24-53085.001-R-1
PARCEL NO.: 13-09-419-013-0000

The parties of record before the Property Tax Appeal Board are Krystyna Dziwisz, the appellant, by attorney Andrew S. Dziuk of Andrew Dziuk, Esq. in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **no change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$10,763
IMPR.: \$22,238
TOTAL: \$33,001

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2024 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a one-story dwelling of masonry exterior construction with 1,190 square feet of living area. The dwelling is approximately 94 years old. The property features a full basement, central air conditioning, 1½ bathrooms and a 2-car garage. The property has a 3,075 square foot site and is located in Chicago, Jefferson Township, Cook County. The subject is classified as a class 2-03 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity with respect to the improvement as the basis of the appeal. In support of this argument the appellant submitted information on five equity comparables that have the same assessment neighborhood code as the subject and are located within .41 of a mile from the subject property. The comparables are class 2-03 properties improved with dwellings of masonry exterior construction ranging in size from 1,020 to 1,350

square feet of living area. The dwellings are from 63 to 101 years old. One comparable has a concrete slab foundation and four comparables each have a full basement. Each comparable has 1 or 2 bathrooms and either a 1-car, a 1.5-car or a 2-car garage. The comparables have improvement assessments that range from \$15,975 to \$20,936 or from \$15.00 to \$15.66 per square foot of living area. Based on this evidence, the appellant requested the subject's improvement assessment be reduced to \$17,850 or \$15.00 per square foot of living area.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$33,001. The subject property has an improvement assessment of \$22,238 or \$18.69 per square foot of living area.

In support of its contention of the correct assessment the board of review submitted information on four equity comparables that have the same assessment neighborhood code as the subject and are located approximately $\frac{1}{4}$ of a mile from the subject property. The comparables are class 2-03 properties improved with one-story dwellings of masonry exterior construction ranging in size from 1,040 to 1,132 square feet of living area. The dwellings are from 66 to 100 years old. The comparables each have a full basement, one with finished area. Each comparable has central air conditioning, 1 bathroom and a 2-car garage. The comparables have improvement assessments that range from \$17,369 to \$22,063 or from \$15.79 to \$20.39 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

Conclusion of Law

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted nine comparable properties for the Board's consideration. The Board has given less weight to the appellant's comparables due to their lack of central air conditioning, a feature of the subject. Additionally, the appellant's comparables #1, #4 and #5 differ from the subject in dwelling size and/or age and the appellant's comparable #5 has a dissimilar concrete slab foundation. The Board has given reduced weight to board of review comparables #1 and #4 due to their newer dwelling ages, when compared to the subject.

The Board finds the best evidence of assessment equity to be board of review comparables #2 and #3, which are overall more similar to the subject in location, dwelling size, design, age and some features. However, both dwellings have one less half bathroom than the subject, suggesting upward adjustments for this difference would be required to make them more equivalent to the subject. These two comparables have improvement assessments of \$17,369 and \$22,063 or \$15.79 and \$20.39, per square foot of living area, respectively. The subject's improvement assessment of \$22,238 or \$18.69 per square foot of living area falls above the two best comparables in the record in overall improvement assessment but is bracketed by the

comparables on a per square foot of living area basis. The subject's higher overall improvement assessment appears to be logical given the subject's superior bathroom count. After considering adjustments to the best comparables for differences from the subject, the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed. Based on this record, the Board finds a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
