

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Wieslaw Wodka
DOCKET NO.: 24-53720.001-R-1
PARCEL NO.: 13-30-132-022-0000

The parties of record before the Property Tax Appeal Board are Wieslaw Wodka, the appellant, by attorney Andrew S. Dziuk, of Andrew Dziuk, Esq. in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$13,950
IMPR.: \$12,050
TOTAL: \$26,000

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2024 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of an approximately 75-year-old, single-family dwelling of masonry construction with 844 square feet of living area. Features of the home include a one-car garage and one bathroom. The property has a 4,500 square foot site and is in Chicago, Jefferson Township, Cook County. The subject is classified as a Class 2-02 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant asserts assessment inequity as the basis of the appeal. In support of this argument, the appellant submitted information on five equity comparables with varying degrees of similarity to the subject property. The suggested comparable properties ranged in size from 895 to 996 square feet of living area and ranged in age from 68 to 101 years old. The appellant reported that the suggested comparables each had the same neighborhood code as the subject property and were located within a range of 0.18 to 1.57 from the subject property. All appellant's comparables had a full basement and no central air conditioning. One comparable had a one-car garage and four had no garage. The comparables have improvement assessments

ranging from \$9.64 to \$10.62 per square foot of living area. Based on this evidence, the appellant requested a reduction in the subject's total assessment to \$22,086.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject as \$26,000. The subject property has an improvement assessment of \$12,050 or \$14.28 per square foot of living area. In support of its contention of the correct assessment, the board of review submitted information on four equity comparables with varying degrees of similarity to the subject property. The suggested comparable properties ranged in size from 792 to 899 square feet of living area and ranged in age from 69 to 86 years old. The board of review reported that the suggested comparables each had the same neighborhood code as the subject property and all were within a quarter of a mile of the subject property. All the comparables had a full basement. One of the comparables had a one-car garage, two had a two-car garage and one had a one and one-half car garage. One comparable had central air conditioning and three did not. The comparables had improvement assessments ranging from \$15.70 to \$17.71 per square foot of living area. Based on this evidence, the board of review requested that the assessment be confirmed.

Conclusion of Law

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The Board finds that the best evidence of assessment equity is the board of review's comparable #3. Like the subject property, this comparable has a full basement and a one-car garage. The dwelling on this comparable is like the subject dwelling in age and living area size. This comparable is in the same neighborhood as the subject and is a quarter of a mile from the subject property. In comparison, the board of review's comparables #1, #2, and #4 had larger garages and #4 had central air-conditioning and the appellant's comparables #1, #4, and #5 were located over a mile from the subject property and #1, #2, #3, and #4 had no garage and were therefore given less weight.

The subject's improvement assessment of \$14.28 falls below the best evidence comparable improvement assessment of \$16.55 and is further supported by the appellant's inability to provide comparables that show the similarity, proximity, and lack of distinguishing characteristics from the assessment. Based on this record the Board finds the appellant failed to meet their burden of proof by not providing clear and convincing evidence that the subject's improvement was inequitably assessed and therefore, a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
