FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD

APPELLANT: Arlene Dingle
DOCKET NO.: 24-54423.001-R-1
PARCEL NO.: 17-29-404-033-0000

The parties of record before the Property Tax Appeal Board are Arlene Dingle, the appellant, by attorney Michael R. O'Malley, of Schmidt Salzman & Moran, Ltd. in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds ***a reduction*** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND:	$16,830
IMPR.:	$45,538
TOTAL:	$62,368

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2024 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a 2-story dwelling of masonry exterior construction with 2,145 square feet of living area. The dwelling is approximately 19 years old. Features of the home include a basement with finished area, central air conditioning, and a 2-car garage. The property has a 3,400 square foot site and is located in Chicago, South Chicago Township, Cook County. The subject is classified as a class 2-78 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity with respect to the improvement as the basis of the appeal. In support of this argument the appellant submitted information on five comparables located within the same assessment neighborhood as the subject. The comparables consist of class 2-78, 2-story dwellings of masonry exterior construction ranging in size from 2,145 to 2,296 square feet of living area. The dwellings range from 18 to 50 years old. The comparables

have either 2, 3, or 3 ½ bathrooms and a 2-car garage. Four comparables each have central air conditioning. The comparables have improvement assessments that range from $30,501 to $36,338 or from $14.22 to $15.94 per square foot of living area. Based on this evidence the appellant requested the subject's improvement assessment be reduced to $31,810 or $14.83 per square foot of building area.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of $64,000. The subject property has an improvement assessment of $47,170 or $21.99 per square foot of living area. In support of its contention of the correct assessment the board of review submitted information on four comparables located within the same assessment neighborhood as the subject. The comparables consist of class 2-78, 2-story dwellings of masonry exterior construction ranging in size from 2,145 to 2,210 square feet of living area. The dwellings range from 7 to 18 years old. The comparables each have a full basement with finished area, central air conditioning, and a 2-car garage. The comparables have improvement assessments that range from $43,609 to $60,184 or from $20.33 to $27.62 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

Conclusion of Law

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant met this burden of proof and a reduction in the subject's assessment is warranted.

The parties submitted nine comparables for the Board's consideration. The Board gives less weight to the appellant's comparables #1 through #5 and the board of review's comparables #1 and #4 which are less similar to the subject in age and dwelling size than the other comparables in the record.

The Board finds the best evidence of assessment equity to be the parties' remaining comparables which are identical or nearly identical to the subject in design, age, dwelling size, location and other features. These three comparables have improvement assessments that range from $30,501 to $45,538 or from $14.22 to $21.23 per square foot of living area. The subject's improvement assessment of $47,170 or $21.99 per square foot of living area falls above the range established by the best comparables in the record. After considering adjustments to the best comparables for differences from the subject, the Board finds the subject's improvement was inequitably assessed and a reduction in the subject's assessment is justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
