FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD

APPELLANT: Marlys Fox Barba
DOCKET NO.: 24-54825.001-R-1
PARCEL NO.: 14-33-124-046-0000

The parties of record before the Property Tax Appeal Board are Marlys Fox Barba, the appellant, by attorney Abby L. Strauss, of Schiller Law P.C. in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds ***No Change*** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND:	$18,321
IMPR.:	$49,679
TOTAL:	$68,000

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2024 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a 2-story dwelling of masonry exterior construction with 1,238 square feet of living area. The dwelling is approximately 57 years old. The home features a full basement with finished area,[1] 2½ bathrooms, central air conditioning and a 1-car garage. The property has a 1,182 square foot site and is located in Chicago, North Chicago, Cook County. The subject is classified as a class 2-95 townhome or row house property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity with respect to the improvement as the basis of the appeal. In support of this argument the appellant submitted information on six comparables located within the subject's assessment neighborhood and from .87 to .95 of a mile from the subject. The comparables consist of class 2-95 dwellings of masonry exterior construction

[1] The board of review's disclosed the subject's basement has a finished area, which was not refuted by the appellant.

containing 1,412 or 1,414 square feet of living area. The dwellings are 45 to 47 years old. Each comparable has a full basement, 1½ bathrooms, central air conditioning, and a 1-car garage. The comparables have improvement assessments ranging from $44,719 to $48,996 or from $31.63 to $34.70 per square foot of living area. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment to $41,906 or $33.85 per square foot of living area.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of $68,000. The subject property has an improvement assessment of $49,679 or $40.13 per square foot of living area.

In support of its contention of the correct assessment the board of review submitted information on two grid analyses, each containing four comparables numbered #1 through #4. For clarity in the record, the comparables in the second grid with 32-year-old dwellings have been renumbered in consecutive order as comparables #5 through #8. All the comparables are located within the subject's assessment neighborhood, and comparables #1 through #4 are also located within the same block and street as the subject. The eight comparables consist of class 2-95, 2-story or 3-story dwellings of masonry exterior construction ranging in size from 1,148 to 1,496 square feet of living area. The dwellings are 32 or 57 years old. Comparables #1 through #4 each have a full basement with finished area, and comparables #5 through #8 each have a slab foundation. Each comparable has central air conditioning and either a 1-car or a 2-car garage. Five comparables each have a fireplace. The board of review provided notations indicating the board of review's comparables #1 through #4 are located within subject's development and the comparables #5 through #8 are located outside the subject's development. The eight comparables have improvement assessments ranging from $48,881 to $96,090 or from $40.53 to $83.70 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

Conclusion of Law

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted fourteen equity comparables for the Board's consideration. The Board gives less weight to the appellant's comparables and the board of review's comparables #5 through #8 which are less similar to the subject in age, dwelling size and/or foundation type when compared to the subject. In addition, the Board gives less weight to the board of review's comparable #1 which has a significantly higher improvement assessment relative to the other comparables in the record.

The Board finds the best evidence of assessment equity to be the board of review comparables #2, #3 and #4 which are located within the same assessment neighborhood, block and street as

the subject and overall are most similar, and/or identical, to the subject in design, age, dwelling size, foundation type, and other features. These three comparables have improvement assessments ranging from $48,881 to $50,175 or from $40.53 to $43.50 per square foot of living area. The subject's improvement assessment of $49,679 or $40.13 per square foot of living area falls within the range established by the best comparables in the record on an overall basis and below the range on a per square foot basis. After considering adjustments to the best comparables for differences when compared to the subject, the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
