FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD

APPELLANT: Mohammed Khan
DOCKET NO.: 24-55072.001-R-1
PARCEL NO.: 10-23-306-012-0000

The parties of record before the Property Tax Appeal Board are Mohammed Khan, the appellant(s), by attorney Brian S. Maher, of Weis, DuBrock, Doody & Maher in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds ***No Change*** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND:	$6,642
IMPR.:	$21,358
TOTAL:	$28,000

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2024 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a one-story single-family dwelling of masonry construction with 952 square feet of living area. The property is approximately 68 years old and has a full basement and central air conditioning. The property has a 4,920 square foot site and is located in Skokie, Niles Township, Cook County. The subject is classified as a class 2 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant asserts assessment inequity as the basis of the appeal. In support of this argument, the appellant submitted information on four equity comparables with varying degrees of similarity to the subject property. The suggested comparable properties range in size from 944 to 969 square feet of living area and range in age from 71 to 73 years old. The appellant's comparables had masonry constructions. Three comparables had full basements and one comparable had a slab foundation. Three of the comparables had garages and one did not. The

appellant reported that the suggested comparables were in the same neighborhood code as the subject property but failed to provide their proximity to the subject property. The comparables have improvement assessments ranging from $19.81 to $21.47 per square foot of living area. The appellant provided a board of review decision letter disclosing the total assessment for the property as $28,000. The appellant disclosed the property has an improvement assessment of $21,358 or $22.43 per square foot of living area. Based on this evidence, the appellant requested a reduction in the subject's total assessment to $26,253.

The board of review submitted its "Board of Review Notes on Appeal" and subject property information for the incorrect property. [1] In support of its contention of the correct assessment, the board of review submitted information on four equity comparables with varying degrees of similarity to the subject property. The suggested comparable properties were one-story single-family dwellings that ranged in size from 1,025 to 1,179 square feet of living area. Each suggested comparable had a masonry construction and a full or partial basement and ranged in age from 68 to 74 years old. The proximity of the board of review's comparables to the subject property is unknown, except for suggested comparable #2 which was located on the same block as the subject property. The comparables have improvement assessments ranging from $22.30 to $22.43 per square foot of living area. Based on this evidence, the board of review requested that the assessment be confirmed.

Conclusion of Law

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The Board finds that the best evidence of assessment equity is the board of review's suggested comparable #2 and the appellant's suggested comparables #1, #3 and #4. Like the subject property, each of these comparables has a one-story, single-family dwelling of masonry construction with a full basement. The dwellings on these comparables are similar to the subject dwelling in age and living area size. These comparables are all in the same neighborhood as the subject. The best comparables have improvement assessments that range from $19.81 to $22.43 per square foot of living area. The subject's improvement assessment of $22.43 per square foot of living area is within the range established by the best comparables in this record. The Board therefore finds that the appellant did not demonstrate with clear and convincing evidence that the subject was inequitably assessed, and a reduction in the subject's assessment on this basis is not warranted.

[1] The board of review submitted information on 8339 Ridgeway Ave. (10-23-305-012-0000) instead of 8339 Lawndale Ave. (10-23-306-012-0000).

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
