

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Emily Chapman
DOCKET NO.: 24-55722.001-R-1
PARCEL NO.: 32-05-224-003-0000

The parties of record before the Property Tax Appeal Board are Emily Chapman, the appellant, by attorney Dimitrios Trivizas, of Dimitrios P. Trivizas, Ltd. in Skokie; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$4,672
IMPR.: \$17,328
TOTAL: \$22,000

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2024 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a 1-story dwelling of frame exterior construction with 1,425 square feet of living area. The dwelling is approximately 60 years old. Features include a full basement with finished area, central air conditioning, and a 2-car garage. The property has an 8,494 square foot site and is located in Glenwood, Bloom Township, Cook County. The subject is classified as a class 2-03 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity with respect to the improvement as the basis of the appeal. In support of this argument, the appellant submitted information on seven equity comparables located within the subject's assessment neighborhood. The comparables are improved with 1-story, class 2-03 dwellings of frame, masonry, or frame and masonry exterior construction ranging in size from 1,295 to 1,620 square feet of living area. The homes range in

age from 56 to 60 years old. Six comparables each have a full or partial basement and one comparable has a slab foundation. Five comparables each have central air conditioning. Each comparable has from a 1-car to a 2-car garage. The comparables have improvement assessments ranging from \$13,496 to \$18,050 or from \$9.54 to \$11.14 per square foot of living area. Based on this evidence, the appellant requested that the subject's improvement assessment be reduced.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$22,000. The subject property has an improvement assessment of \$17,328 or \$12.16 per square foot of living area.

In support of its contention of the correct assessment, the board of review submitted information on four comparables located within the subject's assessment neighborhood. The comparables are improved with 1-story, class 2-03 dwellings of frame exterior construction with either 1,255 or 1,425 square feet of living area. The homes are either 59 or 60 years old. Each comparable has a full basement, three of which have finished area, central air conditioning, and a 1-car or a 2-car garage. The comparables have improvement assessments ranging from \$16,773 to \$18,753 or from \$12.23 to \$13.36 per square foot of living area.

Conclusion of Law

The appellant contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted 11 suggested equity comparables for the Board's consideration. The Board gives less weight to the appellant's comparables #1, #2, #3, #5, #6, and #7, as well as board of review comparable #4 which are less similar to the subject in dwelling than other comparables in this record, lack a basement foundation, which is a feature of the subject, and/ or lack central air conditioning, which the subject features.

The Board finds the best evidence of assessment equity to be the appellant's comparable #4, as well as board of review comparables #1, #2, and #3 which are identical or nearly identical to the subject in location, design/class, age, and dwelling size with varying degrees of similarity in other features. These comparables have improvement assessments ranging from \$15,676 to \$18,753 or from \$11.00 to \$13.16 per square foot of living area. The subject's improvement assessment of \$17,328 or \$12.16 per square foot of living area falls within the range established by the best comparables in this record. After considering adjustments to the best comparables for differences when compared to the subject, the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
