Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2024 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The property consists of two parcels improved with a 3-story dwelling of masonry exterior construction with 6,368 square feet of living area. The dwelling was built in 2014 and is approximately 11 years old. Features include a full basement with finished area, central air conditioning, two fireplaces, and a 3.5-car garage. The property has a 6,200 square foot site and is located in Chicago, North Chicago Township, Cook County. The subject is classified as a class 2-09 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity with respect to the improvement as the basis of the appeal. In support of this argument, the appellant submitted information on five equity comparables located within the subject's assessment neighborhood. The comparables are improved with 2-story or 3-story, class 2-09 dwellings of masonry exterior construction ranging in size from 5,019 to 7,883 square feet of living area. The homes are from 17 to 30 years old.

Four homes each have a full or partial basement and one comparable has a crawl space foundation. Each comparable has central air conditioning, from one to three fireplaces, and a 2-car or a 3-car garage. The comparables have improvement assessments ranging from \$21,573 to \$313,347 or from \$4.20 to \$40.00 per square foot of living area. The appellant requested the subject's improvement assessment be reduced.

The board of review submitted its "Board of Review Notes on Appeal." The appellant submitted the board of review final decision disclosing the total assessment for the subject of \$500,733. The subject property has an improvement assessment of \$404,633 or \$63.54 per square foot of living area. In support of its contention of the correct assessment, the board of review submitted information on four equity comparables located within the subject's assessment neighborhood. The comparables are improved with 2-story or 3-story, class 2-09 dwellings of masonry exterior construction ranging in size from 5,658 to 6,502 square feet of living area. The homes are from 6 to 18 years old. Each home has a full basement with finished area, central air conditioning, two or three fireplaces, and from a 2-car to a 4-car garage. The comparables have improvement assessments ranging from \$375,151 to \$420,425 or from \$64.26 to \$70.54 per square foot of living area. Based on the evidence, the board of review requested confirmation of the subject's assessment.

Conclusion of Law

The appellant contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity, and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted nine equity comparables for the Board's consideration. The Board gives less weight to the appellant's comparables which are less similar to the subject in dwelling size and/or age than the other comparables in this record. Further, the appellant's comparables #1 and #3 have dissimilar 2-story designs, in contrast to the subject's 3-story design, and the appellant's comparable #1 lacks a basement foundation, which the subject features.

The Board finds the best evidence of assessment equity to be the board of review comparables which are overall most similar to the subject in location, design/class, age, dwelling size, and features. The best comparables have improvement assessments ranging from \$375,151 to \$420,425 or from \$64.26 to \$70.54 per square foot of living area. The subject's improvement assessment of \$404,633 or \$63.54 per square foot of living area falls within the range established by the best comparables in this record on an overall basis and below the range on a per square foot basis. After considering adjustments to the best comparables for differences when compared to the subject, the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
