

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Ronald Highley
DOCKET NO.: 25-00347.001-R-1
PARCEL NO.: 02-05-416-024

The parties of record before the Property Tax Appeal Board are Ronald Highley, the appellant, by attorney Nicholas J. Cortesi, Attorney at Law in Chicago; and the Lake County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Lake** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$7,663
IMPR.: \$96,421
TOTAL: \$104,084

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Lake County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2025 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a split-level dwelling of wood siding exterior construction with 1,044 square feet of living area. The dwelling was built in 1988 and is approximately 37 years old. Features of the home include central air conditioning, a fireplace, and a 576 square foot garage. The property has a 10,663 square foot site and is located in Antioch, Antioch Township, Lake County.

The appellant contends assessment inequity with regard to the improvement as the basis of the appeal. In support of this argument the appellant submitted information on four equity comparables located in the subject's assessment neighborhood and within .3 of a mile of the subject. The comparables consist of split-level dwellings of wood siding exterior construction ranging in size from 1,120 to 1,232 square feet of living area. The homes were built from 1986 to 1991. Each dwelling has a garage ranging in size from 528 to 676 square feet of building

area. Two comparables have central air conditioning and one comparable has a fireplace. The comparables have improvement assessments ranging from \$78,641 to \$92,894 or from \$68.74 to \$82.94 per square foot of living area. Based on this evidence, the appellant requested a reduced improvement assessment of \$78,143 or \$74.85 per square foot of living area.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$104,084. The subject property has an improvement assessment of \$96,421 or \$92.36 per square foot of living area.

In support of its contention of the correct assessment the board of review submitted information on three equity comparables located within the subject's assessment neighborhood and within .38 of a mile of the subject. The comparables consist of bi-level dwellings of wood siding exterior construction containing either 1,040 or 1,044 square feet of living area. The homes are either 34 or 38 years old. Each dwelling has central air conditioning and garage ranging from 440 to 768 square feet of building area. One comparable has a fireplace. The comparables have improvement assessments ranging from \$95,140 to \$97,886 or from \$91.13 to \$93.76 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

Conclusion of Law

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill. Admin. Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity, and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill. Admin. Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted a total of seven equity comparables to support their respective positions before the Property Tax Appeal Board. The Board has given reduced weight to the appellant's comparables #1 and #2, which lack central air conditioning, a feature of the subject. The Board finds the parties' remaining comparables are similar to the subject in age, location, dwelling size, and features. These comparables have improvement assessments ranging from \$87,316 to \$97,886 or from \$72.76 to \$93.76 per square foot of living area. The subject's improvement assessment of \$96,421 or \$92.36 per square foot of living area falls within the range established by the best comparables in this record. Based on this record and after considering adjustments to the best comparables for differences from the subject, the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
