## Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Lake County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2025 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

## Findings of Fact

The subject property consists of a 2-story dwelling of brick and frame exterior construction with 5,322 square feet of living area. The dwelling was constructed in 2005 and is approximately 20 years old. Features of the home include a basement with finished basement, central air conditioning, two fireplaces and a 854 square foot garage. The property has an approximately 62,726 square foot site and is located in Long Grove, Vernon Township, Lake County.

The appellant contends assessment inequity, with respect to the improvement assessment, as the basis of the appeal. In support of this argument, the appellant submitted information on nine equity comparables located in the same assessment neighborhood code and within .27 of a mile of the subject. The comparables are improved with 2-story dwellings of brick, frame or brick and frame exterior construction ranging in size from 4,605 to 5,952 square feet of living area. The homes range in age from 19 to 24 years old. Each comparable has a basement, with five

comparables have finished area. Each comparable has central air conditioning, one, two or three fireplaces and a garage ranging in size from 763 to 1,405 square feet of building area. The comparables have improvement assessments ranging from $194,490 to $276,786 or from $34.02 to $48.58 per square foot of living area. Based on this evidence, the appellant requested the subject's improvement assessment be reduced to $240,767 or $45.24 per square foot of living area.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of $356,364. The subject has an improvement assessment of $253,132 or $47.56 per square foot of living area.

In support of its contention of the correct assessment, the board of review submitted information on two equity comparables with both comparables being the same as the appellant's comparables #6 and #4, respectively, which were described above. Based on this evidence, the board of review requested the subject's assessment be confirmed.

## Conclusion of Law

The appellant contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments, for the assessment year in question, of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted nine equity comparables for the Board's consideration with two comparables common between both parties. The Board gives less weight to the appellant's comparables #1, #2, #5 and #8 which lack as finished basement area, a feature of the subject.

The Board finds the best evidence of assessment equity to be the appellant's comparables #3, #4, #6, #7 and #9, and the board of review's comparables, including the two common comparables, which are more similar to the subject in location, age, design, dwelling size and other features. These comparables have improvement assessments that range from $213,258 to $276,786 or from $44.41 to $48.58 per square foot of living area. The subject's improvement assessment of $253,132 or $47.56 per square foot of living area falls within the range established by the best comparables in this record. After considering appropriate adjustments to the best comparables for differences from the subject, the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
